CITB SITE SAFETY PLUS

**SITE ENVIRONMENTAL AWARENESS
TRAINING (SEATS)**

CITB Site Safety Plus Site Environmental Awareness Training (SEATS)

Location

London & Birmingham classroom based: £175.00

Online: £125.00

Course Overview

The one-day Site Environmental Awareness Training Scheme (SEATS) course is specifically tailored for individuals who already have supervisory responsibilities or are on the brink of taking up such roles.

It serves as a comprehensive introduction to environmental considerations within the construction industry and is designed to impart fundamental environmental knowledge that subcontractors need to possess and showcase to major contractors.

This concise course is designed for those operating at the supervisor level and delves into all pertinent legislation and other factors that impact the environment within the building, construction, and civil engineering sectors. It equips supervisors with a comprehensive understanding of environmental concerns and the challenges that construction sites commonly encounter.

Who is this course for

This course is suitable for managers, supervisors, foreman and agents and for those with design or purchasing responsibilities

Course Content

On completion of this course you will be able to:

- Identify the significance and importance of the environment.
- Understand the Environment Management Systems
- Implement effective site waste management

- understand issues relating to being a good neighbour- heritage, communication, archaeology and nuisance
- Use techniques to efficiently manage energy and resources

Certification for this course maintains its validity for a duration of 5 years. To uphold your certification in this field, it's essential to complete a refresher course before the expiration date.

Assessment / Examinations

To successfully achieve this course delegates must pass both the multiple choice exam paper at the end of the course and the trainer review.

Entry Requirements

There are no formal entry requirements for this course. However, it has been developed for construction supervisors, so this should be considered before enrolling delegates on this course. Delegates must be competent in English at site supervisor level.

Duration

1 day - delegates are required to complete the full day (7.5 hours) to be eligible for certification

Progression

Candidates will be able access and secure, sustainable careers within the construction industry as well as explore cross industry or NVQ courses.
