CITB Site Safety Plus Site Management Safety Training Scheme (SMSTS)

Location

London & Birmingham classroom based: £395.00
Online: £345.00

Course Overview

The Site Management Safety Training Scheme (SMSTS) is an intensive five-day course designed for site managers and individuals aspiring to take on this role.

It is designed for those entrusted with the responsibilities of managing, monitoring, implementing, and reporting within the dynamic construction environment.

This comprehensive course delves into the essential health, safety, and environmental legislation that significantly influences safe operations in the building, construction, and civil engineering sectors.

It underscores the pivotal role of conducting risk assessments within the workplace, implementing requisite control measures, and fostering effective communication to maintain a culture of health and safety throughout the workforce.

Who is this course for

This SMSTS course is for project managers, site managers and supervisors, business owners and clients.

Course Content

On completion of this course you will be able to:

- Implement all health, safety, welfare and environmental legislation affecting your daily work
- Implement new guidance and industry best practice
- State your duties and responsibilities with regards to health, safety, welfare and the environment

Certification for this course maintains its validity for a duration of 5 years. To uphold your certification in this field, it's essential to complete a refresher course before the expiration date.

Assessment / Examinations

To successfully achieve this course delegates must complete all four core exercises, pass the trainer review and pass a multiple choice examination at the end of the course

Entry Requirements

No formal entry requirements are necessary. Still, delegates should currently hold or be on the cusp of taking up the position of a site manager. Prior knowledge of health and safety is advisable.

Individuals without previous health and safety management experience are encouraged to consider the two-day SSSTS course. Additionally, delegates must be proficient in both written and spoken English, essential for effective communication at the site management level.

Duration

5 days - delegates are required to complete the full course (37.5 hours) to be eligible for certification

Progression

Candidates will be able access and secure, sustainable careers within the construction industry as well as explore cross industry or NVQ courses.
